Marvin Interior Shade
Double Hung Retrofitting Installation Instruction

ABSTRACT: The following instruction is for retrofitting a Marvin Interior Shade on a Double Hung window. The unit needs to be plumb, level, square and the jamb extension can not be bowed or your interior shade may not fit properly. *Shades are for use only in connection with Marvin® brand windows and doors. Shades are not covered under warranty if used with Integrity®, Infinity®, or any third party manufacturer's product.*

NOTE: Numbers listed in parentheses () are metric equivalents in millimeters rounded to the nearest whole number.

IMPORTANT

Retrofitting the interior shade system is best when sash is installed.

Tools and Supplies Needed:	
3/4" (19) 18 gauge brad nails	
1 1/8" (29) nails	Safety glasses
Measuring tape	Hammer

Tip

Receivers and fillers have different profiles. Use correct profile per location for correct fit and operation. Interior shades being retrofit with a retractable screen have a different receiver and filler profile.

2. Cut sill and head jamb lineal receivers to size. See figure 2.

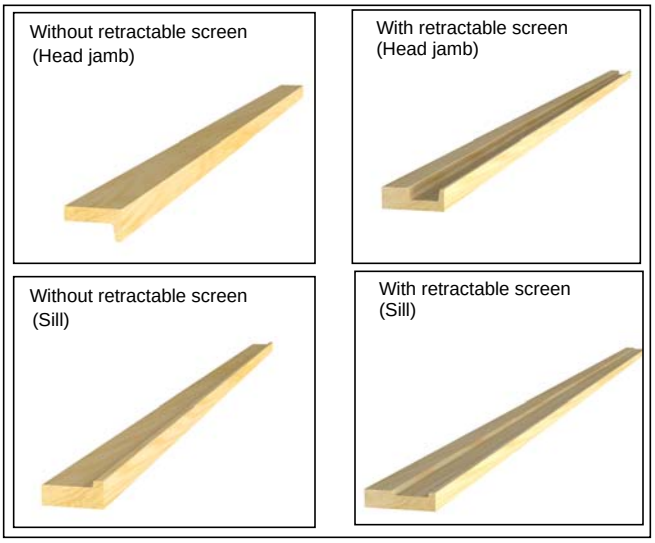

Figure 2

3. Nail receivers at head jamb (figure 3) and sill (figure 4) using 3/4"(19) 18 gauge brad nails 8"-10" (203-254) apart and 1"(25) from each end.

IMPORTANT

Proceed to Step 7 if you are **not** using the interior shade in conjunction with a retractable screen. Steps 4, 5 and 6 are for interior shades used in conjunction with retractable screens ***only***.

4. Measure distance between the head jamb and sill receivers. See figure 5.

Figure 5

5. Cut lineal fillers to size. See figure 6.

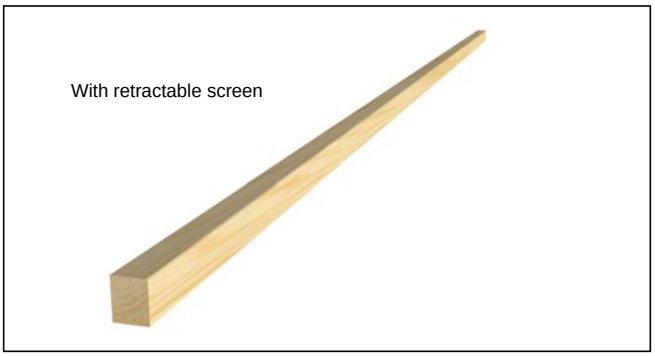

Figure 6

6. Nail vertical filler pieces using 1 1/8" (29) nails to jamb extension, place nails 8"-10" (203-254) apart and 1" (25) from each end. See figure 7. Nail the filler through the thinner side.
