RESIDENTIAL

# THE GRANARY

## SITUATION OVERVIEW

The Granary, situated in one of Boulder's newest boutique, north-side areas, features contemporary styling with panoramic views of the Rocky Mountains. To maximize the vistas, Integrity windows and French doors were included in the plans. The windows and doors were the perfect choice to provide the fit, sleek styling and durable finishes the owners were looking for in this Colorado mountain neighborhood.

## INTEGRITY SOLUTION

Not only were Integrity windows and doors selected for their contemporary styling and tough, exterior finish, but also the windows and doors were readily available, which was not the case from another window manufacturer. The outstanding service from the local Integrity dealer – along with the availability of the windows and doors – was critical to keeping the project on schedule.

### Integrity windows and doors are built tougher, last longer and protect better.

- Contemporary styling means that Integrity builds products for expansive views, maximum light and clean lines with narrow profiles to offer design flexibility for a sleek, modern look.
- Ultrex's exterior finish is a patented, mechanically bonded acrylic cap finish – the *first and only* to be verified to AAMA 624-10 – which means less chalking, fading, cracking, scratching, UV degradation and maintenance.
- Unmatched aesthetics, quality and reliability: tough, dependable, non-corrosive and low-maintenance Ultrex fiberglass construction makes Integrity windows and doors the best value for performance and sustainability.

## PROJECT HIGHLIGHTS
