

Did you know that old, inefficient windows contribute to losing as much energy as a **2 FT BY 2FT HOLE IN THE SIDE OF YOUR HOUSE?***

That's how much energy-efficient windows can save you on your heating and cooling bills.**

CHECK THE LABEL

Look for performance ratings from a reputable third party, like ENERGY STAR or the NFRC (National Fenestration Rating Council).

MOST EFFICIENT

That's ENERGY STAR'S highest rating. Marvin has the industry's widest selection of wood and clad wood windows that qualify as Most Efficient.

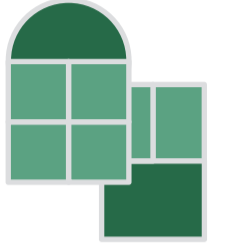

KNOW YOUR CLIMATE

Different glass works best in different climates, so where you live impacts what you should buy. For example, in Northern zones, triple-pane glass is a great option for keeping heat in, where in the south, choosing a window with a lower NFRC Solar Heat Gain Coefficient (SHGC) works best to keep solar heat OUT.

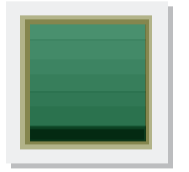

Go Passive! Marvin is proud to LEAD THE INDUSTRY IN PASSIVE HOUSE DESIGN SOLUTIONS

that satisfy Passive Building Criteria, which is designed to keep your home comfortable using minimized heating and cooling systems.

MINIMIZE ENVIRONMENTAL IMPACT

Marvin offers a wide array of products that meet Passive House, LEED® and Net Zero Energy Building Certifications.

Window treatments can REDUCE ENERGY USE

in your home, reduce heat loss in the winter and heat gain in the summer.***

ENERGY STAR has four zones in the U.S. (and four more in Canada) with DIFFERING PERFORMANCE CRITERIA BASED ON LOCATION

for optimal performance for your region. To get the best fit for you and your zone, work with an experienced Marvin dealer who can help you understand the best solution for you.

GREEN YOUR HOME WITH WINDOWS

Windows are one of the key elements to consider when looking to increase a home's energy efficiency. Many factors come into play when choosing the right window from climate to desired conservation efforts. Marvin Windows and Doors is the leader in energy-efficient solutions. Know what to look for when choosing your next window.

Buy from a company you can trust.

2014 American Business Ethics Award winner for "Most Ethical Large Company in America."

Your Marvin dealer can tell you about our warranties. See Marvin.com/warranty for details.

And we're proud to say that every Marvin product is

HANDCRAFTED IN AMERICA.
